

YEN-TING LEE

Sunnyvale, CA 94085 ◊ 650-686-8442 ◊ ralph831005@gmail.com ◊ <https://yt-lee.com>

SKILLS

Programming	Python, C, C++, Java, Bash Script, SQL
Machine Learning	PyTorch, Neural Networks, NLP, Natural Language Generation (NLG)
Development	Distributed Systems, System Design, OOD, Hadoop, MapReduce, MongoDB, Git, Scrum

WORK EXPERIENCE

Amazon Web Services (AWS) March 2025 – Present
Software Development Engineer 2

- Built an automated OS image validation service using QEMU, shortening the debug cycle from 2 weeks to 1 hour.
- Launched an automated firmware delivery service, enhancing firmware version control at manufacturing partners.
- Led security and operational readiness reviews for the firmware service, ensuring strict compliance and stability.

Point72 July 2019 – May 2023
Software Engineer

- Developed a C++ high-performance portfolio optimizer, speeding up execution and doubling investment returns.
- Scaled trading systems to support entry into new global markets, driving a 10% increase in trading volume.
- Designed core libraries that reduced model execution time by 50% while enhancing code maintainability.

GameMind July 2017 – May 2018
Software Engineer

- Led development of an ML profiling solution for Peekur, enabling customers to identify target audiences effectively.
- Architected and built a scalable backend data system optimized for an early-stage startup environment.
- Built a multi-threaded data pipeline to efficiently collect, classify, and store large volumes of text data.

TrendMicro July 2016 – August 2016
Software Engineer Intern

- Engineered a malware detector using cutting-edge machine learning methods, achieving a 0.98 AUC.
- Built a text classifier to summarize customer feedback, providing actionable insights for product improvements.
- Implemented multiple Hadoop-based data pipelines to support large-scale data processing.

PUBLICATION

Conditional Sentence Rephrasing without Parallel Training Corpus 2022 IEEE ICMEW
Y.-T. Lee, C. T. Li and S.-D. Lin pp. 1-1, doi: 10.1109/ICMEW56448.2022.9859385.

- Developed a novel variational auto-encoder (VAE) to conditionally rephrase sentences without parallel data.

EDUCATION

National Taiwan University (NTU) Sep 2017 – Jun 2019
Master of Science in Computer Science and Information Engineering GPA: 4.11/4.3

National Taiwan University (NTU) Sep 2013 – Jun 2017
Bachelor of Science in Computer Science and Information Engineering GPA: 4.13/4.3

- Double Major: Finance
- Award: Dean's List Award (2 semesters)
